

Important Announcement: Integration of Florida Operations

Old Republic Title's Executive Management decided 2025 was the appropriate time to merge its Florida operations. The combination of these historically productive units will be a benefit to all of our agents through the services and expertise currently offered, and those forthcoming through our national initiatives.

Over the course of the 3rd and 4th quarters of 2025, Old Republic Title will begin integrating its Florida operations into a single cohesive unit.

The integration of such sizeable operations demands a large amount of planning and assessment. We have put together a project management team specifically for those purposes. The Fund is a key part of that team, along with Executive Leadership from Old Republic Title's Eastern Title Division and Florida Operations.

Any questions regarding this announcement may be sent to ezinfo@oldrepublictitle.com.
